

Oceania MathsJam Gathering presents...
Public talk + Q&A session

Information is Beautiful

4–5:30pm, Saturday 25th October

Christchurch Park Function and Event Centre
250 Westminster Street, Mairehau

In an age of fake news and misinformation, data visualisation has become essential for building bridges between experts and the general public. Creating not only truthful, but also functional, beautiful, and insightful visualisation is an art form. This talk will present some of the foundational ideas, challenges and technologies used to turn data into beautiful information, including examples of spectacular successes and failures.

Guest speaker: Christoph Bartneck

Dr. Christoph Bartneck is a professor in the Department of Computer Science and Software Engineering at the University of Canterbury.

His interests lie in the fields of Human-Computer Interaction, Science and Technology Studies, and Visual Design.

All welcome to attend for koha / gold coin at the door
